Disaster Cache Planning

Starting points:
- Where is the evacuation site?
- Site purpose? (Phase 1-assembly area: min, hrs, days and Phase 2- shelter area: weeks, months)
- How many people?
- For how long?
- Demographic of potential users?

Materials: what and how much
- Basics-water, food, shelter/warmth, first aid, sanitation…
- Support items needed to deliver each basic material
- Communication
- Mental health support

Storage:
- Container(s), access, permits, space requirements, storage plan…

Site planning:
- Camp layout
- Site resources

Protocols:
- Incident command procedures
- Directions for each basic material
- Camp layout plan

Ownership:

Maintenance:
- Who does the work?
- How often is it done?
- Who pays for it?
