To the City Council re Vacation Rentals:

We strongly support limiting the number of vacation rentals in Yachats—and by extension both recognizing permanent residents of Yachats and preserving Yachats as a village and not a resort.

We also strongly urge the Council to implement ways of holding owners responsible for noise and parking violations, whether by assessing them excessive fines that affect their well-being as the noise and parking violations affect the well-being of their neighbors or whether by revoking their vacation rental contract with the city altogether.
