John McClintock  
Public Works Dept.  
City of Yachats

Dear John

On behalf of the Quiet Water community I am writing to thank you for your prompt and effective response to the drainage problem in our neighborhood that occurred this morning. As a result, the inconvenience caused to people living in that area was kept to a minimum. I really felt for you and your crew, working under such unpleasant conditions, to get the job done. Please convey my thanks to them all.

Apparently that particular drain has caused similar problems in the past. To prevent a recurrence, I would like to suggest an annual clean out in early Fall. We in QW do our best to remove leaves from our streets and parking areas, and we have had several work parties doing just that in recent months. However, I believe that today's backup was probably caused by a more substantial blockage.

Thanks again, we sincerely appreciate your help.

Sincerely,

Walter Orchard  
(President, QWHA)

X cc. Mayor Ron Brean
